About Us

For a Prosperous Iran

Arya Group stands as the global authority in integrated heavy equipment solutions, where engineering excellence meets operational mastery. Our well-experienced leadership team, drawn from the pinnacle of heavy machinery innovation, drives a 360° solutions ecosystem that redefines cost-optimized performance.

We engineer reliability into every transaction through:

- Used/New brand heavy equipment supply covering your need
- Genuine Spare Parts supply to ensure genuine performance
- Dual-Source Procurement: OEM- direct & premium aftermarket components supply
- Certified components - direct partnerships ensure traceable quality
- Premium brand power solutions for off-grid operations
- Lifecycle performance guarantees - Backed by our Structured technical capabilities for strategic frame-works
- “AryaCONNECT” program covering Operational-Ready Fleet Solutions - 24/7 support via our international service hubs

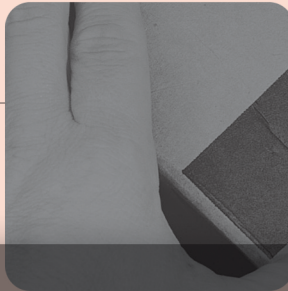

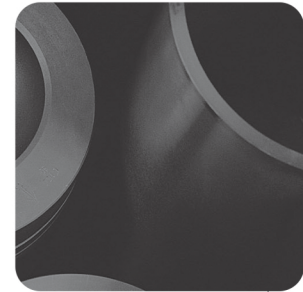

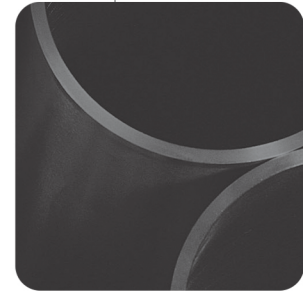

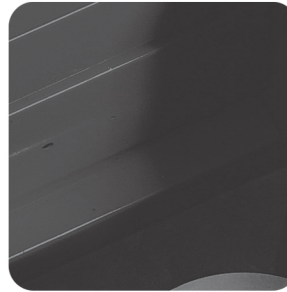

Let Arya field-tested expertise become your operational accelerator. Our capabilities transform equipment procurement from cost center to competitive differentiator. because your uptime is our bottom line.

Arya Group Value Proposition

Let our Legacy in heavy asset orchestration become your Force Multiplier.

Arya Group doesn't just supply equipment - we engineer Continuous Productivity through strategic partnership and All-presence technical support.

Why Enterprises Choose Arya :

"We transform capital expenditure into operational power"

Heavy Equipment

Arya Group is your reliable source of brand new and used equipment provider for Mining, General & Heavy construction equipment.

Our global sourcing network are backed by excellent customer service, after-sales service support, training, and easy access to genuine, OEM & aftermarket parts covering mining and construction equipment portfolio:

- Rigid Dump trucks 90-400T payload capacity
- Hydraulic Excavators 35-800T capacity
- Wheel Loaders 3-35m³ bucket range
- Graders 14-24ft moldboards
- Dozers 12-35m³ Blade capacity
- Articulated Trucks 25-40T payload
- Rotary & DTH Drills 150-450mm diameter

Power System

Arya Group global footprint in power system solution sustain operations when failure isn't an option.

- Diesel & Gas Generator Supply
- EPC & Turnkey Projects Execution
- Distributed Power Plants execution
- Project Feasibility study & Custom Fabrication
- Genuine Parts Supply & Lifecycle Support

For years, we've delivered our power solution across:

- Emergency healthcare complexes
- Mining industry providing reliability
- Oil&Gas industries including Offshore oil platforms & petrochemical
- Hyperscale data centers, commercial & residential complexes
- Industrial manufacturing hubs
- Industrial Powerhouses

Powering businesses across different countries,
we turn energy resilience into competitive advantage

Where Mechanical Muscle Meets Intelligence

Custom-tailored support packages through the network of strategically-located branches, will ensure that your machines are always running at peak productivity. A wide range of Customer Support agreements (CSAs) to handle your equipment management needs.

There are three different types of CSAs fits your needs:

1. **Inspection:** includes Preventative Maintenance (PM) parts, SOS, Inspection every 1000 hour & Diagnostic Report assessing the condition of the Caterpillar equipment.
2. **Preventative Maintenance (PM):** the maintenance labor and periodic inspections.
3. **Repair & Maintenance Contract (R&M):** Covering all maintenance elements, planned and unplanned repairs including parts & labor.

Moreover, this contract covers all of the maintenance and repair costs during a specified time period which make the customer able to pay one flat rate to cover a wide range of parts and services, instead of unexpected maintenance or repairs payment.

From scheduled fluid and filter changes to major overhauls, Arya service engineers can manage all fleet service requirements in a predetermined price. Wherever your preference, Arya support team will be presented to backup through:

- Overhauling and General Repairs
- Repair Option Program
- Field Service

Arya Service Crew has always tried to do better services for the needs of various technical supports for equipment owners in different sectors. These services cover heavy machinery and power generators in oil&gas, mining, construction, industry & energy segments providing maintenance, operating and maintenance instructions overhauled by latest standards in both the service centers and customer site.

Commitment Metrics

- 98% first-attack repair success rate
- 24/7 field service teams
- 200+ certified field technicians
